

Guide for Girls!

Credit

This book was created especially for one person: YOU. But many people were involved in that process.

The writers were Barbara Cottrell and donalee Moulton.
The cover and page design was the work of Cathy Little.

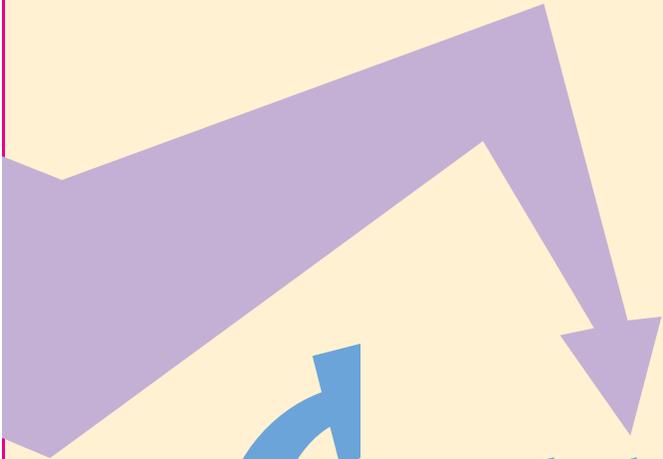

A committee guided planning, writing, and design. They were: Nan Armour, Hypatia; Advisory Council members Linda Carvery and Janette Peterson; Sheri Price, IWK Health Centre; Pamela Fry; students Valerie MacPherson and Kate Manicom; Patti Melanson, Phoenix House; and Nicole Watkins Campbell, Advisory Council on the Status of Women. Barbara Miles, Addictions Services, Colchester-East Hants Health Authority and Laurie Edwards, Nova Scotia Community College also provided input. Thanks to the Antigonish Women's Resource Centre for support and expertise and the use of space. And finally, thanks to Brigitte Neumann, who provided guidance and quality assurance at many key points.

Many teenage girls contributed to this book. For their time, their honesty, and their wisdom, we thank Val, Nicole, Sarah, Kate, Gwen, Fiona, Emily, Erika, Gelisa, Letitia, Jennifer, Ashley, Brittany, Caitlin, Kara, Katrina, Kristal, Kyla, Leah and Rochelle.

Countless Nova Scotian girls inspired this book and inspire the work of the Advisory Council on the Status of Women. You hold some of the keys to the future of our province. Your achievements and aspirations inspire hope and optimism.

Thank you.

Guide for Girls!

Nova Scotia
Advisory Council on
the Status of Women

Conseil consultatif sur la
condition féminine de la
Nouvelle-Écosse

introduction

The Advisory Council on the Status of Women has published this guide for teenaged girls.

This book is a tool to help you prepare for all kinds of challenges. It has ideas from girls like you, as well as from women who work with girls. It also has space for you to write about your dreams, so that you can think about them, play with them, and make some decisions.

This book helped us start talking with teenaged girls. We plan to keep up the conversation over the coming years.

We hope you enjoy the book and use it. It's a new start for us, so if you have ideas or opinions about it that you would like to share, please e-mail us at women@gov.ns.ca .

We are looking forward to hearing from you.

A note about websites & addresses.

When we created the book, we reviewed every website listed and we checked the addresses. They were fine then, but may have changed by the time you read this. If you visit a website and it has changed, especially if it has been taken down or has become something quite different and unpleasant, we would appreciate hearing from you, at the e-mail address above.

You can also visit our website to find more links for girls. We're at www.women.gov.ns.ca.

58 Guide to Resources in Nova Scotia

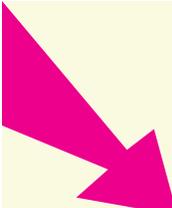

"Life shrinks
or expands in
proportion to
one's courage."
- Anais Nin

GIRL power

reality check

Have you ever seen a photo of the mayors of the major Canadian cities, or the world heads of state? They're almost all men. In Canada, of the 308 members of Parliament, only 64 are women. That's less than 21% – and that's the best it has ever been in the history of the country!

Take a look.

A Financial Post Markets publication estimates that in 2007, women in Nova Scotia who work full-time earn on average \$37,685 a year. Men in Nova Scotia earn on average \$53,720. *In other words, women earn 70.2 cents for every dollar a man earns.*

Girls and women take the lead in many ways. We've made gains in the professions, like business management, medicine, and law, and we're moving more and more into trades and technological fields and into politics in Nova Scotia. Look for women in the lead and you'll find them.

Girls are taking charge of their lives, telling their stories, working for change for themselves and for others.

Drop by this website:

www.girlsinc.org

and pledge allegiance to the Girls' Bill of Rights! It encourages you to be yourself, resist stereotypes, express yourself, love your body, have confidence ... and more!

You'll also want to stop by **www.media-awareness.ca** to build a healthy skepticism about media images and the messages of popular culture. It's all about girl **em*power*ment.**

Working on it

*"I want to walk
through life instead
of being dragged
through it."*

- Alanis Morissette

Chances are you didn't have just one pair of jeans your whole life or even one best friend. And chances are you won't have just one job. You'll find your passion as you walk through life. It just might be a job. Then again, it just might not.

Find your **passion** 
— and your own path

Deciding today what you want to do with the rest of your life is a major decision. Or is it? The reality is there's no rush. And there are many paths. There can be enormous pressure to decide but the truth is, there is no panic. (Pressure, yes. Panic, no.) You can take time to turn your passion on, find a job, volunteer overseas, or go to college or university.

Start by figuring out where you are now, where you want to go, and how to get there from here. Write your dream in this space:

reality check

Most girls do not want to be a salesclerk or an office clerk.

Half of women in Nova Scotia work in sales and service, or clerical occupations.

What can I do?

DREAM! AND GET REAL. It can be done. Match your potential with your dreams, your abilities with your opportunities. If you can write you might want to think about a career in public relations. Like math? How about working in computer sciences? If you want to see the world, you might enjoy a career in international development or in e-commerce.

"It's important
to give it all you
have while you
have the chance."
- Shania Twain

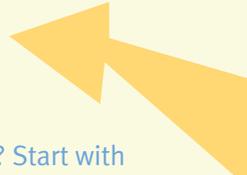

Journal-ize

Write down here what your dreams are:

Now think: Where did those dreams come from? What influenced your dreams?

Ask yourself: Am I buying into a stereotype? Is this really what I want, or is it a magazine fantasy?

Interview yourself

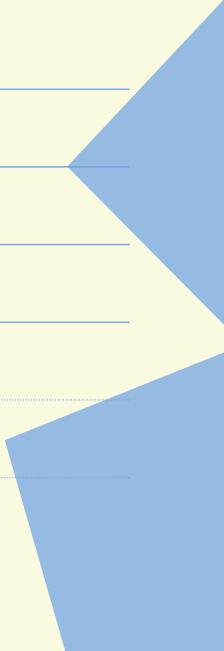

So you want a great job. How do you get from here to there? Start with yourself – and write down your answers to these questions:

What is important to me about a job?

Opportunity to travel? Co-workers with similar interests?

Financial security? An important title? New experiences?

What do I want my life to look like in 2 years? In 5 years?

Be true to you

"I love kids. Love them. I couldn't stand not working with them. I couldn't stand being at a desk all day. I'd go crazy, insane, completely gone."

Nova Scotia teen

Here is a website that also helps you think about options for your career.

● ● <http://www.jobfutures.ca>

● ● Before you decide, check out www.educatingjane.com/
EducatingJane.com is an American site for girls, parents and teachers dedicated to girls' self-esteem, self-awareness, and involvement in the world. Their philosophy: girls should make educational and career decisions based on their interests and abilities.

This website points you to plenty of career information to get you started: www.jobsetc.ca.

Experience pays

It's the same old story: You can't get a job because you don't have experience. You don't have experience because you can't get a job. But you can get both if you volunteer, have fun in the process, give something back and learn stuff you'll never learn anywhere else. Look in the **Getting Out There** section for information to get you started.

"There are other things I think a lot of people don't know about, like other career paths that will get you good jobs you're really interested in. You don't necessarily have to go get formal university education for it." Nova Scotia teen

Summer job ideas for teens

- life guarding at a pool or beach (www.redcross.ca or www.lifesavingsociety.ca)
- camp counsellor • babysitting • food and flower delivery
- dog walking • pet care • retail • fast food, coffee shops
- maintenance staff in a hotel or hospital • movie theatre staff

Summer Work Student Exchange

This program runs for six weeks (from early July to mid-August) and is aimed at 16- and 17-year-old students who plan to return to school in September. The program finds jobs that allow participants to travel to another province to work in their second official language. See www.summer-work.com.

Or start your own business

Studentsinbusiness.ca is the result of a collaboration of governments to provide opportunities and loans of up to \$5,000 to Nova Scotia students. Visit the website for more information.

The costs and rewards

What does a gynecologist really make? A geologist? A graphic designer? And all those other jobs that don't start with "g" like a Pulp and Paper Manufacturing Technologist? A teacher? Technical sales specialist?

CAREER	SALARY AVERAGE PER HOUR	TRAINING REQUIRED
Family Physician	\$76.75	You'll need to spend four years in university getting an undergraduate degree, and then go on to four years of medical school. When you finish that you become a resident for two years.
Geologist	\$23.25	Geologists need a minimum of a B.Sc. but good jobs usually require a Master's Degree.
Graphic Designer	\$16.75	Graphic designers would typically go to the Nova Scotia College of Art and Design and take an undergraduate degree.
Pharmacist	\$32.50	A four-year Bachelor of Science degree in Pharmacy is required, followed by an apprenticeship period and successful completion of the Pharmacy Examining Board of Canada examinations. You must also be licensed with the Nova Scotia College of Pharmacists.
Teacher	\$28.75	Would-be teachers must complete an undergraduate degree and then take another two years' of university to complete their Bachelor of Education degree.
Technical Sales Specialist	\$20.50	Related training is offered at various campuses of the Nova Scotia Community College (NSCC). Certificate and diploma programs can provide technical background for a career in technical sales.

What does it cost to be a geologist? A graphic designer? There's the cost of school and the time it takes to train. And once you're there, what are the costs to your life? Will you be working long, long hours? The information below comes from the Department of Education's Career Options 2003 book. It's available at most high schools and online at <http://careeroptions.ednet.ns.ca/>.

COSTS OF TRAINING

WORK SCHEDULE

The tuition for one year at university is around \$7,000. The tuition for one year at Medical School is \$15,000.

Trained doctors work long hours. Obstetricians who deliver babies often work through the night since babies don't arrive on 9-5 work schedules. Interns and residents typically work very long hours and are on-call for days at a time.

The tuition for four years at university could be \$28,000. A master's degree usually takes two years and will cost a little more than \$15,000.

Geologists often need to work in remote locations where work schedules may be more controlled by weather than the clock.

Four years at an art school could cost more than \$20,000.

Designers often work on contracts and always work to deadline.

A four-year B.Sc. in Pharmacy costs about \$30,000.

Most pharmacists work in retail businesses or hospitals. Hours are regular, but shift work is often part of the job.

Tuition for a Bachelor's Degree costs more than \$20,000 and the B.Ed. can cost another \$10,000.

Teachers get two months off in the summer but can work long hours grading papers and preparing for classes during the school year.

Two year program NSCC

Full time, full year work

reality check

When we see articles about women breaking work-related barriers in almost every field, it looks as though we have achieved equality with men at work. We have made great progress, but can still go further.

Sample occupations: male and female participation and earnings full-year, full-time earners, Nova Scotia

	Number of Earners			Average 2000 Earnings \$ ¹	
	Men	Women	% Women	Men	Women
Specialist Physicians	330	100	23%	\$150,117	insufficient #s ²
Managers in engineering, science & architecture	280	50	15%	\$138,281	insufficient #s
General Practitioners and Family Physicians	520	255	33%	\$117,112	\$114,126
Dentists	175	55	24%	\$111,006	insufficient #s
Lawyers	805	435	35%	\$89,263	\$63,752
Managers – insurance, real estate, and financial brokerage	375	250	40%	\$91,608	\$45,006
Babysitters, nannies, and parents' helpers	40	1,060	96%	\$12,207	\$12,448
Food & beverage servers	250	1,245	83%	\$18,380	\$13,938
Cashiers	260	1,670	86%	\$17,343	\$15,014
Food counter attendants & kitchen helpers	485	1,570	77%	\$16,811	\$15,667
Bartenders	300	255	46%	\$20,378	\$12,665
Early childhood educators and assistants	20	980	98%	insufficient #s	\$17,482

1. Statistics Canada, 2001 Census, quoted from *Paid and Unpaid Work: Women in Nova Scotia* (www.gov.ns.ca/staw/pubs2004_05/Paid_Unpaid2004.pdf).

2. "Insufficient numbers" means there are fewer than 250 workers in the category, and Statistics Canada will not release their income data.

Check this out

See the world, learn a new language, share your skills

Check this website and find out what Canada World Youth can offer, and what you can offer them. The travel option can give you time to think too “see www.cwy-jcm.org”:

- take part in a school exchange;
- work on a ship.

Learn a trade

More women are entering trades, which sometimes pay better wages than traditional “women’s work”. Community colleges and private trade schools give certificates in many trades.

reality check

You can be a woman in a man’s world, but you have to be prepared for an extra set of challenges. Women have done it and you can, too. If you want to have a trade, or work where few women work, go for it. But go for it with your eyes open.

Have you ever thought of working on an oil rig? Being a welder?

Find out more about occupations in these areas, what they involve and what they pay. You can find out more about gaining the right skills by calling employers and Nova Scotia's community colleges. Ask what skills training they offer, where trained trades people are needed, and where there are the job openings.

Techsploration can help you explore a variety of career options in science, trades and technology: www.techsploration.ca.

reality check

5 % of apprentices in the trades are now women.

This website is loaded with info about women in engineering:
www.engineergirl.org.

This one is Canadian: *Yeah!* www.scwist.ca.

Want a practical education?

Over 90% of Nova Scotia community college graduates find employment – and most in their field of study. You can choose to take one of the 100 certificate and diploma programs offered at 13 campuses across the province. NSCC's practical learning options include work terms, cooperative education, and apprenticeships. They also have formal agreements with universities and other post-secondary institutions that will recognize and provide credit to NSCC students who want to continue their studies elsewhere.

www.nsc.ca

Phone: (902) 491-4911 (in metro); 1-866-679-6722 (toll-free).

School didn't work for you?

You can upgrade and improve your vocational and personal development skills, do job searches, work placements and résumé writing, and learn interviewing techniques. Check out Phoenix Learning and Employment Centre in Halifax at **431-9111** or email **phoenixlearn@phoenixlearn.ns.ca**.

You can also upgrade at the NS Work Activity Program nearest you. Contact information is in the Directory at the end of this book.

Or go to a Service Canada Centre. They offer access to job listings and volunteer work opportunities, group information sessions on job searching, resume writing and interview techniques, career counselling services, information on the market such as wage levels, labour laws, workplace health and safety, and other employment programs. They also give you free access to the Internet, phones, fax machines and photocopiers. Call **1-800-622-6232** for the telephone number of the Centre in your area or check out **www.youth.gc.ca**.

Considering university?

Universities have advisors who are waiting for you to talk to them. Find out what programs they offer and what you are best suited for. Every profession has many aspects, explore them. If you want a career in medicine, you could check out what it takes to be a nurse, a doctor, a dentist, a dental hygienist. And if you don't have the money, check out student loans, bursaries and scholarships or think about part-time studies.

Start your own business.

The government might lend you some seed money.

Check this out: www.canadabusiness.ca.

Katimavik

Katimavik is Canada's leading national youth volunteer service program. It pairs young people with volunteer work in communities across Canada. The pay is low, but the experience is highly rated: www.katimavik.org.

Numbers game

It's a myth that girls aren't good at math. The fact is, until we hit high school, we're better at numbers than boys. You can have fun with it at a couple of cool websites:

1 www.mathgoodies.com

2 www.cut-the-knot.com/games.html

3 www.math.ucalgary.ca/~laf/colorful/games.html

4 www.counterhack.net/math_puzzles.html

www.sudoku.name

On your marks...
get set...

go ● ●

If you've chosen college or university, you'll also need to know how to study. Avoiding the books simply doesn't work.

Check out www.studytips.org and www.studygs.net.

*"Dream it up. Life is just far off dreams lived up close. We can build our world to be the world we dream it to be."
- Ember Swift*

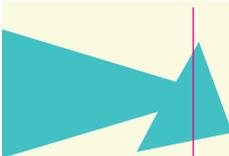

feeling fine

"Life is either a daring
adventure or nothing. To
keep our faces toward
change and behave like
free spirits in the
presence of fate is
strength undefeatable."

- Helen Keller

Think about this question:

What does well-being mean to you? When do you feel really good – healthy, energetic, and full of vitality?

Health isn't just an absence of disease. It's a balance of body, mind and spirit, an ability to cope well with problems, a belief that you can make a difference in your own life.

When you're healthy, you feel well and look well. You achieve it by actively taking care of yourself. Know about how to care for your body, and how to prevent the health problems that affect women, like osteoporosis and anemia. Learn about healthy eating and exercise. And see a doctor or nurse for regular check-ups, especially if you don't feel well.

This guide aims to promote positive health. If you need more specific information, talk to a health professional, like a doctor, a nurse, or a pharmacist.

Girl stuff

“We did this activity called the ‘**bone busters**’ about osteoporosis. If you’re a woman, you’re automatically more at risk than a man. If it’s in your family, you’re at risk. If you’re drinking lots of calcium it’s less risk. If you’re drinking a lot of caffeine, you’re more at risk.” *Nova Scotia teen*

“Vegetarians or vegans may not necessarily get a full balance of everything they need. There are supplements they can take.”
Nova Scotia teen

“Anemia is another really big thing for females. I don’t think a lot of people know about that, or know the symptoms. They just think they’re tired.” *Nova Scotia teen*

Whether it’s questions about sex, menstruation, nutrition, your skin, staying in shape – your local Teen Health Centre is ready to answer. Your family doctor may also be able to answer your questions.

Want more info?

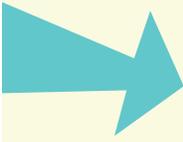

This Nova Scotia website has lots of health-related information for teens.

www.chebucto.ns.ca/Health/TeenHealth/

You can also get reliable information from these websites:

www.canadian-health-network.ca/

www.youngwomenshealth.org/healthinfo.html

Body image 2

Some people are satisfied with their bodies. Some of us think we're too fat, too thin, too tall, too short, the wrong shape or size. Often it's because we see so many touched up images of people who are tall and thin. We lose our perspective after a while. If you know you're healthy, but you're not happy with the way you look, think about why you feel that way. Then change the way you feel.

Write down five things about your body that you like.

Write down five things about yourself that friends and family have complimented you on.

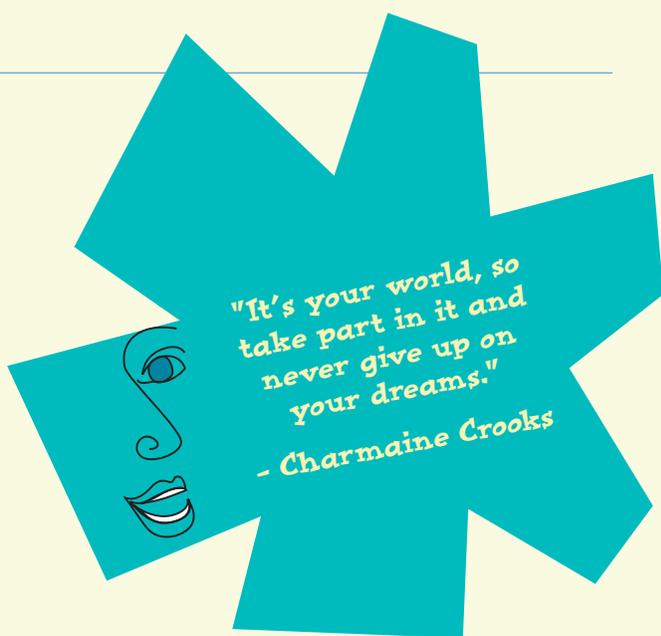

Handling stress

Stress comes with change, and some of that is good.

Other times, school, parents, friends, work, love—it all gets too much!

What stresses you?

How do you cope?

TIP **Manage your time.** www.organizedteens.com offers free information about organizing your study time, your bedroom, your whole life. This site sells a book, but the free tips are great. Your public library probably also has books on managing your time, and your school library should have some resources for getting organized.

TIP **Chill out.** Teens who make time to relax on their own are less stressed and more in tune with themselves. Relaxing might mean walking while listening to your favourite tunes, reading alone in your room, or simply staring out the window and letting your mind go where it wants to for a while. You can find out more about yoga and meditation all over the internet. An interesting site is [cyberparents](http://cyberparents.com). It's got a weird name, but good ideas. www.cyberparent.com/stress

TIP **Nature's tranquilizer** – exercise. When you are stressed it's especially important to eat properly, get enough sleep, spend time with supportive people.

TIP **Drinking and drugs are really lousy coping tools.** See the following sites for information about those issues.

www.chebucto.ns.ca/Health/TeenHealth/Links/
www.thecoolspot.gov

undercontrol

Think you or a friend has a drug problem?

Take this test:

- Is drinking, drug use, or smoking making it difficult to do well at school, job, team sports or extracurricular activities?
- Are you or is a friend drinking or using drugs to quit hurting or to hurt someone else?
- Do you or does a friend drink, use drugs, or smoke to reduce the stress in life?
- Does your Mom, Dad, brother, sister, or someone else close have problems as a result of alcohol or drug use?
- Have you, or has a friend, ever had a complete loss of memory after drinking or done or said things you can't remember?

If the answer to any question is **“yes,”** it may be worth it to talk to an addictions counsellor about the situation.

Call 911 – right away – if you think a friend has overdosed on alcohol or other drugs. You might save someone’s life.

Sick of Smoke?

Fewer young Nova Scotians are smoking. They're catching on that it is unhealthy and expensive. People who smoke, and the people who hang around with them, face higher risk of disease. People who don't smoke take control of their lives.

If you don't smoke, way to go. If you do smoke, try to quit. You'll be glad you did and so will everyone who cares about you.

If you want to quit, check out this website for some support:
www.sickofsmoke.com

Three other websites with great information about how to quit are listed below. The first one is just for girls.

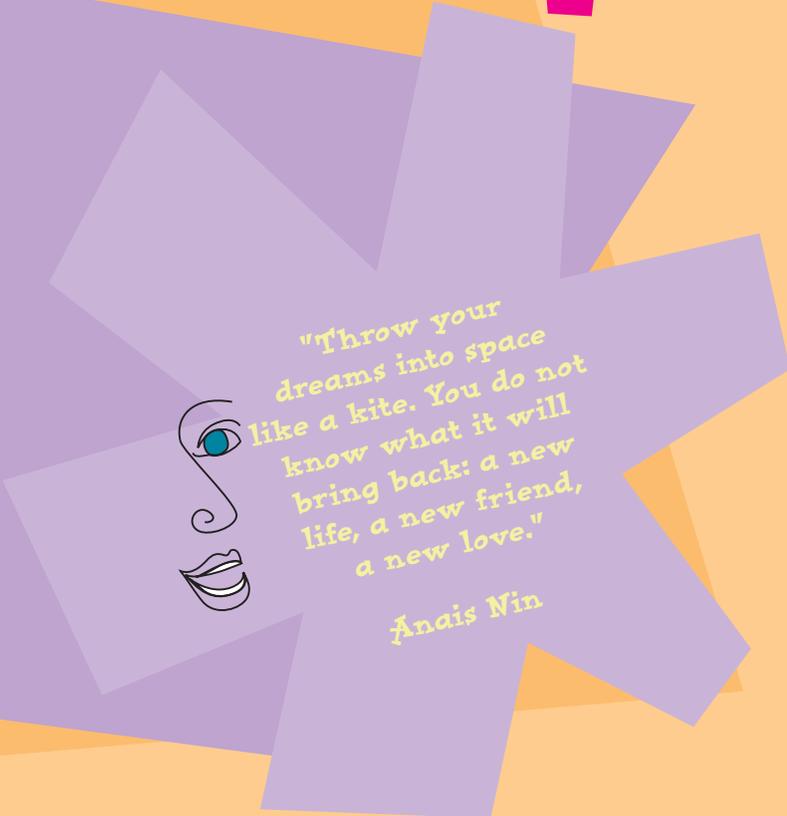

www.girlshealth.gov/substance/index.htm

www.nicotine-anonymous.org

www.quitguide.com/how-to-stop-smoking.html

relationships

"Throw your
dreams into space
like a kite. You do not
know what it will
bring back: a new
life, a new friend,
a new love."

Anais Nin

Healthy Relationships ... with yourself

Fact of life: You will live with yourself all your life.

Learn how to enjoy it!

Step one:

Know yourself. Like yourself. Care about yourself.
I like myself because I...

Step two:

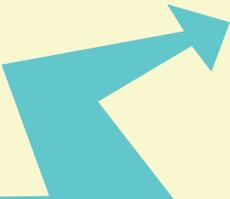

Make sure you have people in your life who care
about you and support you. My best supports are...

Join FLY-W! YWCA Halifax has a free eight-week program Finding Leadership in Young Women that offers the opportunity for you to try new things and explore ideas in a safe space with mentors. You can discover your talents and interest and develop an understanding of healthy relationships.

1233 Barrington St. (902) 423-6162

Many YWCAs have programs for girls. See the directory for locations and phone numbers at www.ywcahalifax.com.

Being alone

Some of us hate being alone.

“When there’s not people there I get bored, get me outta here.” *Nova Scotia teen*

Sometimes we want to be alone.

“Sometimes I feel I need my alone time, too. I don’t want to have too much time with people. I need to just go home and veg.”
Nova Scotia teen

Being alone can be a good time. It’s a time to think and dream without interruption. It’s a time to plan what to do and who to do it with. It’s a time when you don’t have to work hard at anything . . . just be yourself.

reality check

We all have different moods at different times.

I like to be alone because:

I want to be with other people because:

Happiness is ...

"If I'm just tired and cranky I like to be by myself. And sometimes when I'm upset, I just let it out and just cry on my bed. Sometimes, I just need that." Nova Scotia teen

We all get cranky, worry, see red – and green. These feelings can drag us down. They block happiness. They stop us from moving forward. Do you know how to make yourself feel better?

For some people, it's being with friends.

"When you're not feeling good, it just makes you feel down, but sometimes just to get out and do something, especially if you haven't been doing anything and to be around your friends is helpful." Nova Scotia teen

Be good to yourself

Ask for what you need

"I need a hug. Could I have some time alone please? Could you say that to me in a nicer way?" Nova Scotia teen

Every one feels sad at times and has disappointments.

It's even healthy!

Go through your experiences and learn from them!

Chew on this

Feeling down? Did you know that exercise helps fight sadness? Maybe you're more than sad. Have you heard about depression? Want to find out the signs of depression?

Try

http://kidshealth.org/teen/your_mind/mental_health/depression.html and

www.psychologyinfo.com/depression/teens.htm.

Do you know someone who is really depressed?

Are you afraid your friend may even kill herself or himself? Teens are more likely than adults to be aware of a friend's despair, and you can help, but you need to know what you are doing. If you are afraid for a friend, call Kids Help Phone (1-800-668-6868) www.kidshelpphone.ca and they'll help you make a decision about the right thing to do.

Who's responsible for what?

Remember: you aren't responsible for anyone else's behaviour – but you are responsible for your own. Erase these words from your vocabulary: They made me do it.

DAILY DOSE: Look in the mirror and say "I'm wonderful!" Repeat every morning and evening.

Build your self-confidence

You don't have to feel superior or inferior – you can feel EQUAL
You make mistakes, but so does everyone, don't hate yourself for it. You are a worthwhile person. You can learn to...

- trust yourself
- count on yourself.
- like yourself
- know you can do it, your opinion is important, you are as intelligent and attractive as anyone else. Check out:

www.thefarmline.ca/teenstalk/issues/confidence.html

http://youthdevelopment.suite101.com/article.cfm/improving_teen_self_confidence

Submit to Blue Jean Online "the only website written and produced by young women from around the world" is a creative space for young women ages 14 to 22 to submit their writings, reviews, artwork, photography, crafts and other works for online publication to a worldwide audience. It's about what girls are thinking, saying, and doing around the world.

www.bluejeanonline.com

Did you know?

Girls who exercise have more than strong bodies: they have strong self-confidence. You don't have to work out two hours a day or join the soccer league to enjoy feeling strong. There are lots of fun options. **Take a look at:**

<http://life.familyeducation.com/teen/exercise/29461.html>

Healthy relationships ... with your family and other adults

The Adults in Your Life

They'll probably be with you for a long time.

"The relationship with your parents is extremely important, it's never going to be good when you're 17. Well, it could be but it's going to be difficult." *Nova Scotia teen*

So you think your adults want you to spend all your time with them. Or you feel they don't care about you. Or you think you'll always be 12 years old to your mom and dad.

DEAL.

"My parents are really strict. I hardly get out of the house nowadays. If I want to go to a movie, I have to be home right after the movie, and I don't like that. I like being out and being around friends." *Nova Scotia teen*

"In my family we don't see a lot of each other, because we're all with different people. But we do spend time, it just depends on where we are. It's just different that way." *Nova Scotia teen*

How to deal

Girls talk more to their moms or other women than to their dads or other men. So try talking to the adult woman in your life. She probably knows what's on your mind anyway.

"I talk to my mom a little bit, I tell her some things, but even if I don't she always finds out things that I don't tell her. 'How do you know that? I didn't tell you!'" Nova Scotia teen

Or talk to someone else important to you.

"I talk more to my dad because I'm an only child too, but I've always been more close to my dad because we have the exact same personality." Nova Scotia teen

Things not good with the folks right now?

www.kidshealth.org/teen/youth_mind/families/talk_to_parents.html

might help you make them better.

Write a letter

Write a letter to your mom, dad or other important adult in your life. Tell them what you love about them. Tell them how you feel about what happened.

Wait! Don't give them the letter yet. Keep it for a couple of days then decide if you want to share it with them, or just keep your feelings to yourself for now.

reality check ✓

Getting — or keeping — a friend at any cost may be too costly. Take this survey.

Healthy Relationships ... with your friends

We all need friends

Fitting in matters, but it isn't always easy. There has to be give and take on both sides.

"Your most important relationships are with your friends because they're the ones that understand you the most, but you also have a lot of drama with your friends and so that's where it gets tricky." Nova Scotia teen

"You always knew that even though you couldn't see them every single day, there was always someone that if you were having a bad day, or whatever, you could call them. So it was, that was a real confidence boost for me."

Nova Scotia teen

- Am I trying to fit into the right group for me?
- Am I sacrificing myself to be with the cool kids?
- How important is this really?
- What is it costing me to fit in?
- How can I make this work for me?
- Do I really like them and want to spend time with them?
- Do I like to do the same things they do?
- Do I like the way they treat other people?

Problems

"My relationship with my friends changed too, so I don't really hang with them anymore, just because of problems."

"They were just really catty and they tried to gang up on me for some reason, accuse me of doing stuff that I didn't do. One of the girls didn't like my other friend, but somehow they got together and now that friend doesn't like me either, and so they're both ganging up on me."

"I find that with our friends, it's really hard to relate because they're all older than me. It gets kind of hard at times because they're all leaving next year, and grade 12 is going to suck!"

"Why should I care what other people think of me? I am who I am. And who I wanna be."

- Avril Lavigne

Solutions

Radical idea: Talk to them.

“Some of us have been friends forever, and some of us are newer friends, but at the same time I think we’re really close, and we work out our differences.”

“When it comes down to it, the people who stress you out are not good for you, and your real friends will stick by you no matter what.”

“I have really different groups of friends, so if one group turns on me, then I just go to the next.”

Finding friends

"If you're able to do things that interest you, you're going to meet people that have the same interests and you're going to feel a lot better about yourself. So knowing what you like to do is really important in having a healthy relationship with yourself."

"I met Alice through a choir that I'm in."

"I think one of the biggest things is just to get involved in different things to meet other people, instead of just who's at your school."

"I got dragged to curling this year, and I met people who live close to me, and it's a two-minute walk to their house."

Bully for you

Don't know when to talk things over and when to rat? You aren't alone. Teens often feel that asking for adult advice is "ratting". First step, listen to your gut. You'll know what's the right thing to do. Second, ask for advice. Your parents or a teacher are usually the best first step. If you want to remain anonymous, call the Youth Help Line or ask your doctor or someone else you trust.

You don't ever have to tolerate bullying, abuse or violence. Ever. Do you know what to do when someone crosses your boundaries? **Visit www.bullying.org** or call 490-Save (7283) in Halifax or the nearest RCMP detachment and they'll help you decide how to handle it.

What are your lines in the sand?

I will tell my friends I find it unacceptable when they:

Call me names, like "stupid"

Say they'll call, then don't

Ignore me when they're with another friend

"I am a person, born
in the image of God. I
have intelligence, I am
honest, and I am as
good, if not better than
anybody who walks on
the face of this earth."

- Dr. Carrie Best

Healthy Relationships ... with some romance

Ready for love? Take the test.

Write down the answers to these questions:

1. How have I prepared myself for making Big Decisions?

2. How do I know I have the self-confidence to ask the questions I need to ask?

3. What makes me believe I am a good listener?

4. Can I communicate how I really feel? Write down when you last communicated your feelings, and what happened.

5. When did I last say “no” to something I really didn’t want to do? Am I ready to say it when I need to? How will I?

6. Can I ask for what I really do want? What will I say? What’s likely to stop me?

Check out Scarleteen: sex education for the real world at www.scarleteen.com. Great information to help girls freely make their own decisions about their bodies and sexuality.

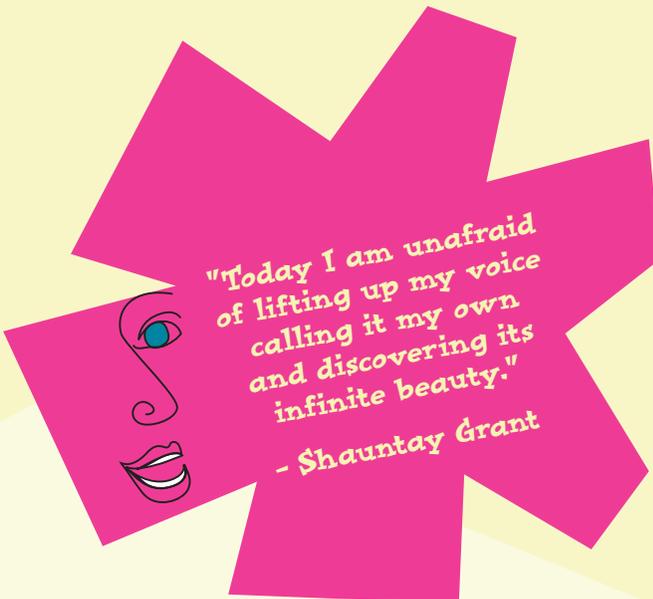

And ask yourself:

Do I think I have to be a pleaser?

Am I experiencing abuse and too shy/embarrassed/afraid to talk about it?

Am I losing my self-respect?

If the answer is **“Yes”** to any of these questions: visit this Nova Scotia website and find out where you can get help: www.chebucto.ns.ca/Health/TeenHealth/sexualhealth/home.htm

Ready or not...for **sex?**

Sex is a big deal. It can bring with it some pretty serious problems, like disease and pregnancy.

Drive your own agenda. If you are thinking about having sex, think about it carefully.

Sex? – A Healthy Sexuality Resource
is a book that gives facts and explores the issues.

You can get it from your school or download it from the Nova Scotia Department of Health Promotion and Protection website, at www.gov.ns.ca/hpp/healthySexuality.html.

Want to talk to a real person? Need help? Call Kids Help Phone and they'll put you in touch with an organization that is there for you. **1-800-668-6868** www.kidshelpphone.ca

"I think for a lot of young girls, it is because 'oh, I really like him, I want to impress him, I think I should sleep with him.' But that's not at all how it should be."

"If you're not comfortable and stuff to talk with your partner about sex, then it's another question you should ask yourself if you should be having sex?"

"If you don't feel comfortable to talk to them, why are you with them? Why are you having sex with them?"

Prefer girls to boys? **Not sure?**

Do you know your sexual identity?

Aren't sure?

Feeling anxious about your likes and dislikes?

Feeling different from other girls?

Feeling guilty about your sexual orientation?

Worry about the response from your families and friends?

These websites can help:

www.puberty101.com

www.sexualityandu.ca/teens

reality check ✓

A person's sexual orientation is not a matter of choice. Individuals have no more choice about being homosexual than heterosexual. Many gay and lesbian individuals first become aware of and experience their homosexual thoughts and feelings during childhood and adolescence.

Cash

reality check

If you buy a jacket for \$149.99 on your credit card, at the end of six months you'll owe \$ 157.49 and at the end of a year, it'll have climbed to \$164.99. Credit companies can charge up to 30% in interest!

It doesn't grow on trees

Do you know where your money goes? If you earn money or get an allowance, you are ready to learn to manage your money.

Why \$\$ smart¹?

- Self-sufficiency – you can make your own decisions
- Power – to create your own opportunities
- Equality – it's not about having a lot of money, it's about having your own money
- Choice – to marry, to study, to move, to start a business – independence means options

1. Adapted from: Ontario Women's Directorate, *Your Money, Your Life, Your Way*

The Canadian Bankers Association offers lots of great information for teenagers on managing money.

Check out

www.yourmoney.cba.ca

In Debt/Out of Debt

Credit is as easy to find today as the pimple on your nose before you're going out. But although buying on credit is easy, it means you owe money, or you're in debt. And once you're there, it's really hard to dig out.

Here is some advice from the experts:

- 1 Save 10% of whatever you earn. Take it right out of your pay and put it in a special account. Try it for three months. Think about what you can buy for yourself with the money – that'll make it easier to do.
- 2 Tax yourself. Take some time to learn about income tax. Know what is taxed and where you can get a tax break.
- 3 If you have any debt, make regular payments.
- 4 Figure out what you owe. You should not owe more than 40% of what you earn.
- 5 Be cool about credit. One card is all you'll ever need.
- 6 Pay bills on time. Interest can turn into a nightmare. It eats away at your cash.

Did you know...

You can get a free copy of your credit report once a year by contacting Equifax Canada (1-800-465-7166/www.equifax.ca) or TransUnion of Canada (1-800-663-9980/www.transunion.ca), the two major credit reporting agencies.

Keep a record

Where does the money go? What do you spend your money on? It's interesting and fun to find out! For one month, write down everything you spend in a little book.

What do you think it costs to live on your own?

List what you think you'd have to spend money on.

Don't forget :

- rent
- electricity
- phone
- cable
- heat
- food/cleaning/personal care
- clothes
- entertainment
- transportation
- spending money
- savings

Did you remember to include your cell phone costs?

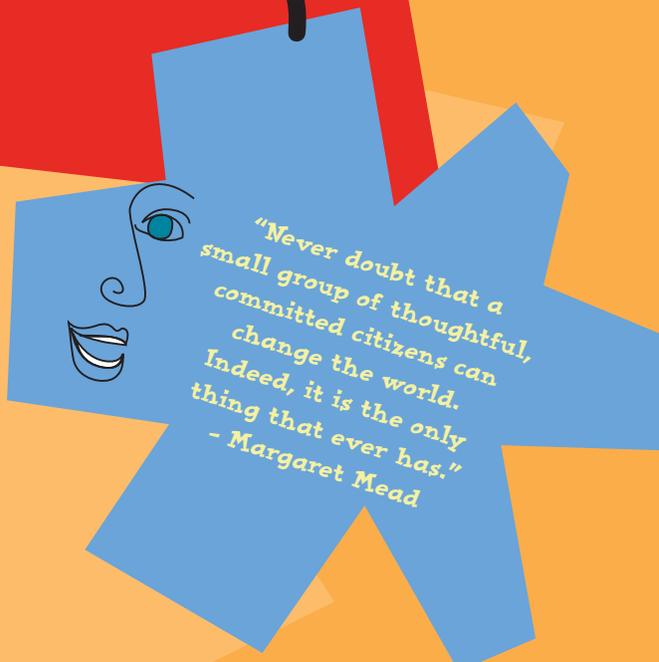

Check out this book:

The Complete Idiot's Guide to Personal Finance in Your 20s and 30s in Canada, by Sarah Young Fisher, Susan Shelly and James Gravelle

Getting out there

What did you do for others that made you feel good about yourself today?

Did you hold the door open for someone who needed a little help? Did you smile instead of ignoring someone who needed comfort?

Want to make a difference in the world and have fun at the same time? Want to put your head on your pillow at night knowing you've done something for your community?

Getting involved in your community can make a difference to others. It can also help you fight stress, open up a world of new friends and look great on the résumé. Changing the status quo starts with you. Stand up for yourself. Take the lead. Become involved. You do have what it takes, and what others need.

So what's out there for you? Plenty.

Call the Kids Help Phone Atlantic Office for information
Phone: (902) 457-4473 . Tell them that you want to get involved; they'll tell you how. Or check out their website:
www.kidshelpphone.ca

Here are some suggestions to start with:

Check out www.takingitglobal.org. This is a global online community, providing youth with inspiration to make a difference, a source of information on issues, opportunities to take action, and a bridge to get involved locally, nationally and globally. Membership is free of charge and allows you to interact with various aspects of the website, to contribute ideas, experiences, and actions.

The YWCA and Women's Centres

The Halifax YWCA offers programs for girls and young women ages 12 to 30. FLY-W! is a free eight-week program that offers the opportunity to try new things and explore your ideas in a safe space with mentors. You can discover your talents and interests and develop an understanding of healthy relationships.

www.ywcahalifax.com

Politics

Even if you're not old enough to vote, you can still be involved in politics, especially if you're interested in what goes on in your world. Young people are becoming more politically aware and involved.

School councils are a great way to get involved and organize students around issues they care about. You might not be concerned about the next wastewater treatment facility or dog bylaw, but you might have an opinion to share with your municipal council about the opening of a new park or what's happening in your school.

Then there's party politics. Provincial and federal governments are formed by elected representatives who belong to political parties, and most political parties have youth caucuses.

Check them out.

Progressive Conservative Party of Nova Scotia
www.pcparty.ns.ca

Nova Scotia Liberal Party
www.liberalcaucus-ns.com

Nova Scotia New Democratic Party
www.ndpcaucus.ns.ca

Green Party of Canada www.greenparty.ca

Atlantica Party www.atlanticaparty.ca

Help someone else

It's good advice when you're feeling blue: help someone else and you'll feel a lot better about yourself and your life. Find a charity that you believe is important and donate some time to it. Try the local food bank, a seniors' centre or a day care. They can all use your help.

Go green

The Nova Scotia Youth Conservation Corps (NSYCC) can give you environmental experience and training by putting you to work on a community project. **Check out their website:** www.gov.ns.ca/enla/youth.

For animal lovers

The Nova Scotia Society for the Prevention of Cruelty to Animals (NSSPCA) welcomes your help. You don't have to be an animal expert to help out at your community's shelter. You just need to have a little time and want to lend a helping hand. They believe everyone has the necessary skills and talents the shelter can use.

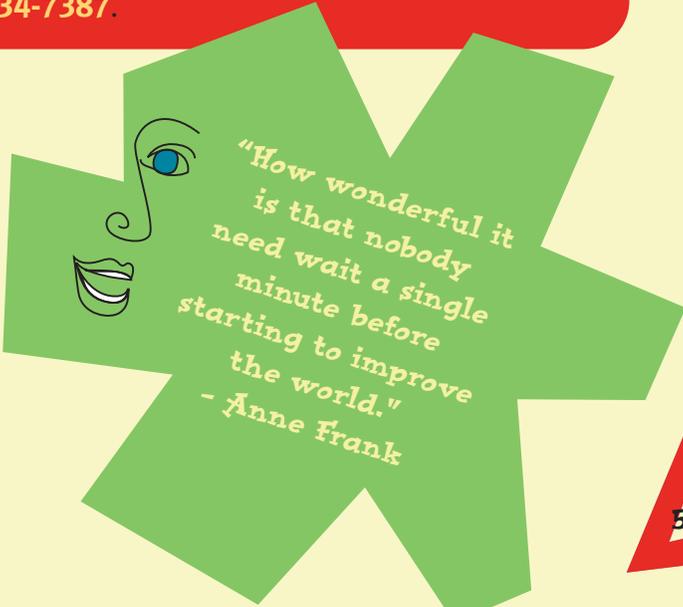

www.spcans.ca/help/index.html

Don't know what you'd be interested in? Youth Help Line staff will help you find what's right for you.

Try a world view

Many schools participate in Model UN projects. This is a chance to find out how other countries view the world. Learn about another country and participate in a UN style meeting. You could be a delegate from Algeria or New Zealand. Ask your social studies teacher if your school has a team. If they don't, start one. This website is a good place to start:
<http://cyberschoolbus.un.org/modelun/index.asp>.

The Youth Advisory Council (YAC) is a voluntary group of young Nova Scotians between the ages of 15 to 24 who have an interest in issues affecting Nova Scotia youth as they relate to policy, programs and legislation of the government. The YAC acts as a sounding board for government on youth issues, and provides advice on areas of concern to youth. Recently, the council provided a focus group for the development of the NovaKnowledge Report Card, offered support to the Task Force on Safer Streets and Communities, and consulted on the Child and Youth Strategy. For information about how to get involved call
(902) 434-7387.

*"How wonderful it
is that nobody
need wait a single
minute before
starting to improve
the world."
- Anne Frank*

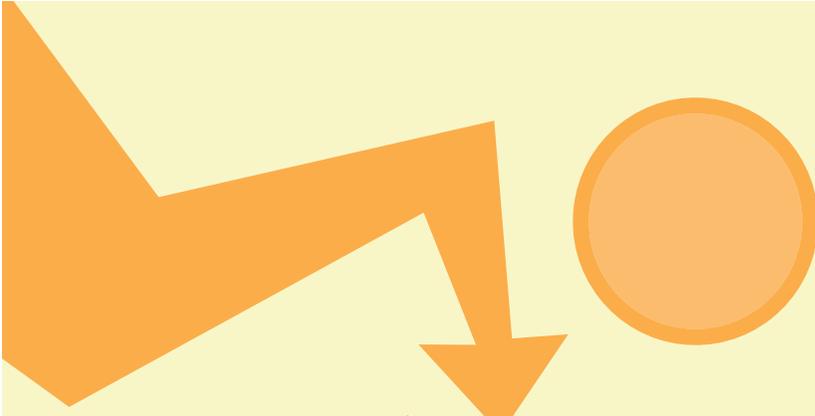

The **Provincial Student Education Council** advises the Minister of Education on matters related to the secondary school system. It supports leadership development opportunities that make a student's transition from school to further education, training, or work as smooth and successful as possible. The council has provided comment on a bullying-in-schools program, the Nova Scotia School Food and Nutrition Policy for Public Schools, and looked at ways to build leadership within the youth sector. Interested? Contact **(902) 424-7387**.

Halifax Regional Municipality offers opportunities for youth to become active in their communities through various projects developed by the youth themselves with assistance from recreation staff. The Kids Help Phone Atlantic Office **(902) 457-4473** knows the contact numbers for the group nearest you.

NSSSA

The Nova Scotia Secondary Schools Students' Association is a non-profit organization run by students that focuses on leadership development at the high school level. Every high school student is a member of NSSA. The organization promotes communication among students in Nova Scotia.
